1. RIGHT OF WAY PERMIT APPLICATION

To be completed and signed by contractor doing the work. The contractor is the Permittee and is ultimately responsible for all work done that affects the Right-of-Way.

Permit <u>will not</u> be issued until all required information has been provided and traffic control plan approved. Incomplete applications will be returned to the applicant.

2. CONTRACTOR'S STATE LICENSE NUMBER AND CLASS (TYPE)

- General Engineering Contractor "A" License may do any type of engineering work in the city right-of-way.
- General Building Contractor "B" License may do any type of work in city right-of-way when the work is associated with the construction of an adjacent building structure.
- Concrete "C-8" License may do any concrete work in city right-of-way.
- Earthwork and Paving "C-12" License may do earthwork or paving work in city right-of-way.
- Paving and Highway Improvement "C-32" License may do any type of engineering work in city right-of-way.
- Pipeline "C-34" License may do any pipeline type of work in city right-of-way.

3. CITY OF CARLSBAD BUSINESS LICENSE NUMBER

Contractor must provide valid city business license number. If none, make application with Building Department and include a copy of the receipt with the right-of-way permit application.

4. CERTIFICATE OF INSURANCE

Contractor shall provide a certificate of insurance for personal injury and property damage liability in the amount of at least \$1,000,000 (one million) per incident. Certificates providing less than one month's liability insurance coverage will not be accepted. Certificate must specifically name the City of Carlsbad as "Additional Insured", as well as "Certificate Holder." Naming the city as additional insured requires an endorsement to the policy and is an additional sheet. The policy number must be on the endorsement.

All required insurance must be underwritten by an insurance company listed in the latest edition of (domestic, not international) <u>Best Rating</u> Guide with a rating of "A"/"A-" or better and a financial size of \$10 million (currently Class VII) or better.

The right-of-way permit, when issued, will be valid for six months or until liability insurance has expired, whichever comes first. It is the responsibility of the <u>CONTRACTOR</u> to notify the city of any insurance policy changes or extensions.

The checklist below is provided to help you comply with these two requirements.*
